

A Story Sewn by You

Brilliance™ | 75Q
Sewing Machine

Start your new story.

Bring your dreams to life with the HUSQVARNA VIKING® BRILLIANCE™ 75Q sewing machine. Sewists everywhere recognize the value of true quality and the beauty of reaching for bigger and better things. It's up to you - your future remains to be sewn!

SEW IN VIVID COLOR

See stitches in real size, and get all the sewing information you need directly from the Interactive Color Touch Screen. The 3.5" (70x53mm) screen with 320x240 resolution is *Made for Sewers, by Sewers*™ for a user-friendly experience.

GENEROUS SEWING SPACE

Sew large quilts, home decor projects and garments with ease on the nearly 10" (250mm) work area. The sewing space on the BRILLIANCE™ 75Q allows you to produce works of art and inspiration of any size.

ASSISTANCE AWAITS

Let the Exclusive SEWING ADVISOR® feature instantly set the best stitch, stitch width, stitch length, thread tension, and presser foot pressure for you. Simply select your type of fabric and sewing technique, and the stitch will be displayed on screen, along with the recommended presser foot, needle size and type.

SPARK YOUR CREATIVITY

The built-in selection of world-class stitches make for more creative opportunities. Add a unique spark to any project using Sequin Stitches, Pop-Up Stitches, Applique Stitches, and Theme Stitches. Only available from HUSQVARNA VIKING®.

- Apply patented Dimensional Stitches by adding fabric or sequins for a unique decorative and textured effect. Go vertically, go horizontally, go all out as long as you let the sequins catch that light!
- Select from four different stitches in the same family to create a unique themed stitch.

EFFORTLESS FEEDING

The Exclusive SENSOR SYSTEM™ technology automatically and continuously senses and adjusts to any thickness of fabric. The result is flawless, even feeding as you sew.

SENSOR FOOT LIFT

- The presser foot lowers and rises automatically to create maximum space when handling thick fabrics.
- Automatically lowers feed teeth on extra lift for maximum space to slide thick fabrics and quilts under the foot easily.
- Operates in four positions: down, pivot, up and extra lift.

SENSOR FOOT PIVOT

- Keep the automatic float position with needle down for instant pivoting, easy appliqué and quilting.
- Leaves your hands free to guide the fabric.

SENSOR FOOT PRESSURE

- The presser foot continuously senses the thickness of the fabric to regulate pressure, for even feeding on all fabric types.

BOUNDLESS OPPORTUNITIES

The possibilities are tremendous, with over 460 stitches across 19 categories for easy selection, and stitches up to 54mm wide. Sew with exclusive patented stitch techniques, or choose between 4 sewing alphabets with both upper and lowercase letters for easy programming.

BETTER, FROM BOBBIN TO THREADER

Bobbin winding from the needle is convenient and time saving. The Bobbin Thread Sensor will alert you when your bobbin thread is running low. Threading using the built-in needle threader reduces eye strain and makes threading easy.

BEAUTY IN MOTION

The BRILLIANCE™ 75Q was designed for the sewer and quilter. Select from two free-motion settings for quilting or beautiful, free-motion embroidery using any stitch. Choose the free-motion setting most convenient for you, whether it's free-motion spring action or free-motion floating. Stellar results await!

DECORATIVE TAPERING

Are you ready to customize a decorative stitch to add that special design detail? This feature automatically reduces stitch width to a point on all decorative stitches for embellishment. Choose from several angle options for easy mitered corners.

LUMINOUS LIGHTING

See how the BRILLIANCE™ 75Q brings your fabric and stitches into focus. The revolutionary LED light illuminated workspace provides bright, even light across the entire area to see your projects in true color.

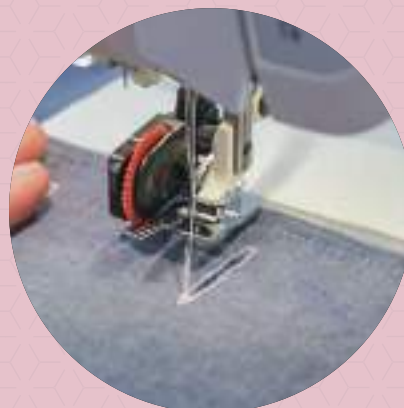

STRAIGHT STITCH PLATE AND SENSOR

The Straight Stitch Plate makes your straight stitches better than ever. When the Straight Stitch Plate is attached, the machine will automatically engage the Stitch Width Safety to alert you if you select anything other than a centered straight stitch, eliminating needle breakage.

BUTTONHOLE SUCCESS EVERY TIME

Lining up and making buttonholes can be a big challenge, but not with the BRILLIANCE™ 75Q sewing machine! The Perfectly Balanced Buttonhole system sews both sides of the buttonhole in the same direction for balance perfection. There are 11 buttonhole styles for various sewing applications.

Brilliance™ 75Q

Sewing Machine

The HUSQVARNA VIKING® BRILLIANCE™ 75Q sewing machine is a approachable way to sew colorful and captivating things. When you begin to leave your mark on the world, you begin to make your story known!
